

Monster Metal

Nekromantix

some people call it evil,
others name it mental rape
once you've been spellbound
there is no escape now it's time for you to let loose
we don't care what they say
join this revelating cruise
'cause monster metal is here to stay suicide and destruction
is what they fear
yeah yeah it's brutal, yes, but dangerous
only for our ears now it's time for you to let loose
we don't care what they say
join this revelating cruise
'cause monster metal is here to stay i can't help jumping around
to the beat of this psychotic sound
is this heaven or is this hell
i'm forever submitted to this monster spell now it's time for you to let loose
we don't care what they say
join this revelating cruise
'cause monster metal is here to stay slatter horror rock n' roll,
crazy you us find
well, death is part of life,
always keep that in mind now it's time for you to let loose
we don't care what they say
join this revelating cruise
'cause monster metal is here to stay (x3)
