

# The Last Dance

## Blood On The Dance Floor

[Verse 1] Interlace your fingers in-between mine  
Whisper in my ear tell me this won't be the last time  
That you ever dance with that smile on your face  
Look me in the eye tell me that you don't want to stay

[Pre-Chorus] If it's the last time

I'm gonna see you

I'm gonna show you

I'm gonna make you move

Come right over here boy

Cuz I've been holding back

If it's the last chance

I'm gonna make you dance

[Chorus] Get on the dance floor

This is your last chance

We'll do it hardcore

Get lost in this trance

The music's calling me

Are you listening

My love's in prison

You hold the only key

[Verse 2] From across the room

I see you standing there all alone

What's it like to feel like your all on your own

Let our future be on the floor

Dance with me

One last time

Leave our past at the door

[Pre-Chorus] It took a long time

To forget you

To pretend you're gone

And you left without a trace

I need you so bad

And it's more than words can say

So take my hand and we'll dance the night away

[Chorus] Get on the dance floor

This is your last chance

We'll do it hardcore

Get lost in this trance

The music's calling me  
Are you listening  
My love's in prison  
You hold the only key  
Cure my addiction  
Beautiful dark muse  
Need your affection  
You are my dream come true  
You leave me breathless  
You hypnotize me  
Can't live without this  
You mesmerize me  
[Bridge] Save me from this darkness  
Can you save me from my past  
Tell me that tonight will last forever  
Let's spend this last dance together (together)  
[Outro] Blood on the dance floor (this is your last chance)  
We'll do it hardcore (lost in this trance)  
Music's calling me (you should be listening)  
My love's in prison (you hold the only key)  
[Spoken] We are all connected if we are all one  
One energy field  
Or one supreme mind  
Or the consciousness  
Of the one creative source  
Call it whatever you want but we are all one  
You cannot be harmed unless you call harm into existence  
by emitting those negative thoughts  
And feelings you are separating yourself  
From the one and all good  
By the law of love  
You must not compete against yourself  
And only focus on your dreams  
Your visions  
And all of your magnificence  
You are the cosmic being  
You are the power  
You are the intelligence  
You are perfection  
All the power comes from faith and within
