

# Open Car

## Porcupine Tree

Nothing like this felt in her kiss, cannot resist her  
Fell for her charm, lost in her arms, I keep a photograph  
Give me a glimpse, let me come in be there inside her  
Here it begins, here is the sin something to lie about You think you're smart, I think you're art, we agree on this  
It doesn't work feeling like dirt, feeling like you don't care  
We get a room and in the gloom she lights a cigarette  
Clothes on the bed, "Love me", she said, I lose myself to her I'm getting feelings, I'm hiding too well  
(Bury the horse shaped shell)  
Something broke inside my stomach  
I let the pieces lie just where they fell  
(Being with you is hell) Hair blown in an open car  
Summer dress slips down her arm  
Hair blown in an open car Okay what's next? After the sex, what do we now?  
Finding the time, drawing the line and never crossing it  
Gave her the hours, gave her the power, cannot erase her  
Gave her the truth, gave her the proof, I gave her everything I'm getting feelings, I'm hiding to well  
(Bury the horse shaped shell)  
Something broke inside my stomach  
I let the pieces lie just where they fell  
(Being with you is hell) Hair blown in an open car  
Summer dress slips down her arm  
Hair blown in an open car  
On a drive out to the farm  
Hair blown in an open car Hair blown in an open car  
Summer dress slips down your arm  
Hair blown in an open car
