In the End (Long Film Version)

Scott Matthew

we all bear the scars
yeah, we all feign a laugh
we all cry in the dark
get cut off before we startand as your first act begins
you realise they're all waiting
for a fall, for a flaw, for the endand there's a past stained with tears
could you talk to quiet my fears
could you pull me aside
just to acknowledge that i've triedas your last breath begins
contently take it in
cause we all get it in
the end
