Our Song

Last Heart Attack

And I knew it!
I was waiting for you
I've got just something to say!
I'm so confused
It seems so strange!
Sorry but I'll be suspiciousIt's not enough, for you and for me
It's not enough, i can't believe you!
If only I knew it would end up like thisI'm sorry, 'cause sometimes I said something wrong of your behavior!
Instead of taking you away from my heart, again.
I fall into your eyes!And I knew it!
I was waiting for it
I won't pray for you to stay!
I'm so confused
It seems so strange!
Sorry but I'll be suspiciousIt's not enough, for you and for me
It's not enough, i can't believe you!
If only I knew it would end up like thisI'm sorry, 'cause sometimes I said something wrong of your behavior!
Instead of taking you away from my heart, again.
I fall into your eyes!All I hope is nothing good
I don't know what you want!
I'm falling, I'm falling again into your eyes
I can't see you anymore!
