

Like Me

Girlicious

You you, you you
(Ladies and Gentlemen)
You you, you you
(Introducing)
You you, can keep on watching me
(Girlicious!) You you, you you
You you, you you
You you, can keep on watching me Look at me, I know I'm fly
Look at me, you wanna be fly like I
I'm the truth and the truth don't lie
Gimme 10 feet chick, now add another 5 If I had a stiff one, you'd be all on that
I'm on fire, I put 'hot' on the map
'Cause I be the one that you wanna be like
(Oh, oh, oh, oh)
Yeah, you wanna be like me Everything she do is like me
From her head to her feet like me
She's trying to talk like me, trying to walk like me
Trying to get all the boys in the club like me Everything she be is like me
Trying to imitate me
She trying to look like me, trying to act like me
Trying to get on the floor and shake her ass like me Look at me, you know I'm hot
Look at me, bet you wish you had my spot
You can't, chick, but I'ma let you try
To get on my level, level, get on my level tonight If I had a stiff one, you'd be all on that
I'm on fire, I put 'hot' on the map
'Cause I be the one that you wanna be like
(Oh, oh, oh, oh)
Yeah, you wanna be like me Everything she do is like me
From her head to her feet like me
She's trying to talk like me, trying to walk like me
Trying to get all the boys in the club like me Everything she be is like me
Trying to imitate me
She trying to look like me, trying to act like me
Trying to get on the floor and shake her ass like me Ah, ah, she wish she was fine
Ah, ah, she wish she was a dime like me
'Cause I'm a hottie and this a party
She wish she was me and that's too bad Ooh, she wish she was bad
Ooh ooh, she wish that she had
All the boys like me

It ain't easy being me, is it baby? Everything she do is like me
From her head to her feet like me
She's trying to talk like me, trying to walk like me
Trying to get all the boys in the club like me Everything she be is like me
Trying to imitate me
She trying to look like me, trying to act like me
Trying to get on the floor and shake her ass like me Ah, ah, she wish she was fine
Ah, ah, she wish she was a dime like me
'Cause I'm a hottie and this a party
She wish she was me and that's too bad You you, you you
You you, you you
You you, can keep on watching me You you, you you
You you, you you
You you, can keep on watching me
Ooh!
