Sanded Faceless

Cannibal Corpse

Rapacious for pleasure scraping
Filing down with intense grinding
Harsh abrasive, friction deface
Countenance now removed foreverScouring faces with flies
Tedious rasping
Painstakingly grate the skin
Insensate razing, sanded facelessA violent facial scrub
Malefic in nature
An art of shaving the bone
Insalubrious
Sanded faceless, sanded facelessRubbing off a humans visage
Enduring display of malice
With celerity they perish
Countenance now removed foreverEverything gone from the head
Miasmal menace
All curves of a face are now smooth
Forced a new surface, sanded facelessObscurity into black
Outrageous agenda
Sensory perception lost
Left to live in pain
Sanded faceless, sanded facelessInsane appearance eyeless
To calibrate the skull
Image erasing soulless
Re-texturing of flesh
Suddenly to be faceless
For perpetuityScouring faces with flies
Tedious rasping
Painstakingly grate the skin
Insensate razing
Sanded facelessA violent facial scrub
Malefic in nature
An art of shaving the bone
Insalubrious
Sanded faceless, sanded faceless
