

# The Secret Book

## This Frontier Needs Heroes

I been called every name in the book  
I think it's about time that we tore it up  
Cause I am getting tired of feeling bad  
Squandering everything that we could have I wake up every day cause I wanna work  
but if I don't get some am I a jerk?  
well makes me just end up feeling sad  
about all the free time that we should have But I won't let it bring me down I been called every name in the book  
I been made to feel sly like I was a crook  
but I done nothing except for mix it up  
I done nothing except for shake it up I like to browse and I like to look  
strumming through the pages of our history  
but there's no need to buy into everything  
when we could just share at a library Your gonna have to sacrifice in this world  
cause there's not enough of gold or wine or pearls  
well it might as well be something that makes real sense  
like starving and lying and foolishness But I won't let it bring me down  
No I won't
