

Life Is Great

Alamo Race Track

Think ahead, take one step back
Stick around, you may get what you need
And all the whole will get you down
Will keep you up
And when it rains, it really hurts
And when it rains, I will go home

And all the stones, in my shoes
May cloud my reason, but not today
Just give me something, just give me something
In return

And I will refuse to entertain you all
And I'm not doing the junky swing
Alright

I will keep my fingers crossed
Will it help them notice me?
Will they help me alright?
Afternoon, one summer breeze,
You'll tame the horse, I'll look for birds
Find my thrill alright

Oh can't you see that life is great, see that life is great
Oh can't you see that life is great, see that life is great
Oh can't you see that life is great, see that life is great
Oh can't you see that life is great, see that life is great
