Over the Hills

Luciano

Where must I find a place to live
In this jungle created by mankind?
Where will I lay my weary head?
Tell me, how I'll find a peace of mind?Some say earth a run red
Man and man must insure dem head
But I feel like running instead
And find me a place, I'll be freeI will take me over hills and that valley
Yes, I'll find me a place I'll be free
Yes, I'll take me far away from the city
Mother nature is calling meSo many year in starvation
And I can't find a thing to nyam
Sometimes I contemplate
And wonder what is wrongThough I try so hard, I just can't get along
Man to man is unjust
And I don't know who to trust
Still I say living is a must
So I'll find me a place where I'll be freeI will take me over hills and that valley
Yes, I'll find me a place I'll be free
Yes, I'll take me far away from the city
Mother nature is calling meDoing my best to serve mankind
To liberate the captivated mind
Still they don't seem to hear my call
So I won't linger and perish with them at allSome say earth a run red
Man and man must insure them head
But I feel like running instead
And find me a place I'll be freeI will take me over hills and that valley
Yes, I'll find me a place I'll be free
Yes, I'll take me far away from the city
Mother nature is calling me
