

She's so Happy to Be

Fool's Garden

(Hinkel / Freudenthaler)She says that: "All that I can say
is I feel hungry" and today
she says that all my hunger
she'll satisfy no moreShe says:" As far as I can see
you're not the only one for me"
She's leaving sweet illusions
I'm all by myselfShe's so happy to be
It's too much freedom for me
She has turned the key
and she gives it back to meShe says that all I have to do
is to watch out for someone new
She says life's wonderful
some consolation that isShe says 'chin up - your life goes on,
you'll see I'm not the only one
I won't be persuaded I don't see it that wayShe's so happy to be
It's too much freedom for me
She has turned the key
and she gives it back to meAll that I can find
especially in my mind
It's some kind of perfect interference
All that I can see
my baby's glad to be
to all appearance
All that I can say
it's happening every dayShe has turned the key
and she gives it back to meI guess she doesn't like that lovesong,
I guess she doesn't like that way
She says she doesn't like that lovesong,
she says it and she walks away.
