

Phantoms Now

Armor for Sleep

Tonight, at twelve, we change ourselves
Forget, this world, we know Transparent we'll be invisible so they won't see
Our hearts beat we won't hurt a thing
We just want to haunt this house at least for now Watch us change, kill the light
Phantoms now dead tonight You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear
You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear
I'll disappear We'll stay in this room sit still and enjoy the calm
We've become, we'll fall down the stairs
Nothing can support us now we're not here Watch us change, kill the light
Phantoms now dead tonight You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear
You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear I'll disappear
We're not here
I'll disappear You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear
You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear
You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear You'll be a ghost, I'll be your dream
You'll float through me, I'll disappear
You'll be a ghost, I'll be your dream
You'll float through me, I'll understand
