Spineshank

Don't you realize that it has to be
Why did you do this, consolidate my fear Face down save face Growing out of my face, what it represents I need
Why did you do this, consolidate my fears It's all inside of me
It's depraved
Grows inside of me
And it suffocates Don't wish it won't help Face down save face It's all inside of me
It's depraved
Grows inside of me
And it suffocates Face down save face
