I Wanna Stay Home (Demo)

Jellyfish

When you need someone
And there's no one there
There is always the nine o'clock train
To take you out somewhereI take the train in town
Like I did for years
There is only seven more blocks
I could walk from hereI wanna stay home
I wanna stay home right here
I wanna stay home today
I wanna stayIt's only six o'clock
When my day begins
There is always my alarm clock
To wake me up againWhen I realize the weight
That's firmly on my shoulders
I just try and find the place
I can take a walk on my blind sideWhen these memories fade
In my ripe old age
Please remember my dearI wanna stay home
I wanna stay home right here
I wanna stay home today
I wanna stayI wanna stay
I wanna stay
I wanna stay
I wanna stay
