Lady Luck

Jamie Woon

La-lady luck ain't playing on my side
La-lady luck ain't smiling down
La-lady luck don't care about my pride
La-lady luck lay, lays it downI get this feeling I can dream tonight
Yeah, I've been seeing all the signs
A dream no one can dream to undermine
This time I am gonna get it rightLa-lady luck ain't playing on my side
La-lady luck ain't smiling down
La-lady luck don't care about my pride
La-lady luck lay, lays it downSometimes I wish I could anesthetize
Bring up the lows, bring down the highs
She is the one I need to sympathize
She is the one who sees me cryAnd I've been waiting for her day and night
I know my lady is around
I would put everything I have on the line
I will get better odds than nowLa-lady luck I need a little light
La-lady luck I need you now
La-lady luck you got to make it right
La-lady luck don't let me downAnd it ain't something you can synthesize
And it ain't something you can buy
Ain't got nothing to do with wrong and right
Got everything to do with timeLa-lady luck you save my life tonight
La-lady luck I owe you now
La-lady luck I'll be a better guy
La-lady, I'll share your luck aroundLa-lady luck is standing by my side
La-lady luck won't let me drown
La-lady luck shows me a better sign
La-lady luck lay, lays it down
