Pull Away

Abra Moore

What will we do
When the morning comes?
When we say goodbye
Will we let go slow?And how will it be
In the future?
Will it feel the same?
Will we remember?Well, here comes that love again
And it just won't stop
So, we try to be together
Spent all of a lifetime
Trying to find the love we've got
Can we try to stay together?And who will we call
At the end of the day?
When I check the machine
Will it be your name?
And how will I know
When to turn out the light?
Or save you a place?
(Forever...)But here comes that love again
And it just won't stop
So, we try to be together
Spent all of a lifetime
Trying to find the love we've got
Will it last forever?And how can I be true?
How can I be true and still have you?And what will we do
When the morning comes?
When we say goodbye
Will we let go slow?And how will it be
In the future?
Will it feel the same?
Will we remember?Well, here comes that love again
And it just won't stop
So, we try to be together
Spent all of a lifetime
Trying to find the love we've got
Can we try to stay together?As we pull away...
As we pull away...
As we pull away...
As we pull away...As we pull away...

As we pull away...
As we pull away...
As we pull away...
