

# Wound

## Godflesh

There you are as you always were  
In bathing light and naked blur  
You're a part of me, eternal one  
By grand design and setting sun  
If you wait, I will wait  
Taste, I will taste  
If you love, I will love  
Run, I will run to my last breath  
Last night I turned around  
And thought I saw myself turning  
Inside the strangest dream  
Of life unloved and cities burning  
Awake in my arms  
You cry unharmed  
Our age of the hours  
While they still devour all  
So take it all, I doubt if we  
Will know it's gone 'cause we've been here  
Since time began, begged God awake  
And make these plans  
Wound opens  
Reveal this broken man  
And soon there's notions  
  
Of blood on his hands  
If you wait, I will wait  
Taste, I will taste  
If you love, I will love  
Run, I will run to my last breath  
Last night I turned around  
I thought I saw myself turning  
Last night I turned around  
I thought I watched the world ending  
Inside the crushing down  
I felt a pang the tide was turning  
Destroyed in the wake  
The jealous ingrates  
Who'll tear this world down  
To spite God above

With his own love  
With his own love  
If you wait, if you wait  
If you wait, I will wait  
Taste, I will taste  
If you love, I will Love  
Run, I will run to my last breathe
