

Comeback Kid

Descendents

I thought...
If I could just shout it in your face, I could make it happen
You live you win, boy, and can't you see
You're the most valuable player to me Comeback Kid - it's exciting to watch you live
What's inside of your broken lid
We all want you to win
I really want you to win Where did you go? But I didn't know you were facing elimination
So many people rooting for you
They'd do anything to see you through
Comeback Kid - it's exciting to watch you live
What's inside of your broken lid
We all want you to win You cleared your head - turned back time just like Superman
At the top of your game again
Now I know you can win So much to do and so much time
Fill in the gap you left behind
So many lights inside your mind
I could feel it when you called me after
To fill in the gap
And when you laughed I knew everything was fine Comeback Kid - it's exciting to watch you live
What's inside of your broken lid
We all want you to win
Hey, Comeback Kid
Welcome back the Comeback Kid...make him laugh
The Comeback kid...we all want you to win
I really want you to win You live you win
