

# Fever (feat. KNA)

RAC

The heat hits and fades after the fall  
Smoke in the air from where we let go it all  
These undefined ways set the pace of in a blaze  
So good to feel the same way  
Fever  
Can you feel the fever?  
Feel the rush that will overtakes you  
When it hits you when on fire  
Fever  
We hear the sounds of the dawn that comes  
Till then we reckless speeding into the unknown  
Let me hear the town, temper of your heartbeat multiplied  
Only the rhythm in between us counts tonight  
Fever  
Can you feel the fever?  
Feel the rush that overtakes you  
When it hits you when on fire  
Fever  
Let me hear the sound  
Let me draw 'em down  
Let me feel the reckless speeding into the unknown  
Let me feel the fire  
Hearing your heartbeat multiplied  
Only the rhythm in between us counts tonight  
It's all this for now  
There's no better way to be loved  
That's the sound  
Can we live inside love?  
I wanna live to see the day  
Let this be the prayer  
Now...  
Fever  
Can you feel the fever?  
Let me hear the sound  
Let me draw 'em down  
Let me feel the reckless speeding into the unknown  
Let me feel the fire  
Hearing your heartbeat multiplied  
Only the rhythm in between us counts tonight  
The heat hits and fades after the fall  
Smoke in the air from where we let go it all  
These undefined ways set the pace of in a blaze  
So good to feel the same way
