

Master Stroke

Global Citizen

smoke me, blow me
do what you do, deep throat me
smoke me bitch, smoke me
lower yourself down on me
do it, come down on me
take me anyway you want me
i'm yours, you've got me
my joystick's in your hands
control memaster stroke
stroke the master
slap you back down
if you don't move faster
master stroke
stroke the master
my joystick's in your hands
move yourself in closer let me hold your hair back
out of your deep dark slanted eyes
you can make me feel
like i've won first prize
take me to heaven
but don't bring me back
i dream of siam
and my siamese cat hold your hair back
out of your deep dark slanted eyes i'm your favourite flavour tonight
now show me some pink
