

A Small Crusade

The New Amsterdams

Stand at attention
Leading a listless life
No open redemption
By the riverside, what you saw
Was salvation on the goFree who you were before
Find what you're looking for
Lose everything but you do it againYou're always a pilgrim
Leading a small crusade
To find the essential
Not a missionary or a guide
The past is part of this to cast asideTo free who you were before
Find what you're looking for
Lose everything but you do it again
Again
