

# New York City Lights

Sophie Ellis-Bextor

Do it, feel it, touch it, taste it  
Be it, live it, need it, take it  
Just another day  
I want to get away  
I've got a ticket for a new adventure  
No one will know our name  
So we can start again  
And all we're gonna do is seek out pleasure  
The city calls to me  
It offers what I need  
We can escape and take it on together  
Bridge:  
Come away with me  
Chorus:  
New York City lights so bright  
We can lose ourselves  
And start a new life  
Run away and leave tonight  
(let's do it, feel it, touch it, taste it)  
New York City take a bite and  
Subway down to Times all night  
It's my world informed alright  
  
(do it, feel it, touch it, taste it)  
I want to take your hand  
Fly over sea and land  
It's the beginning of the end  
It's our time  
A dollar says it's true  
This town gets hold of you  
We'll see it written right across the skyline  
Bridge  
Chorus  
Run away with me  
Run away with me  
Chorus  
New York City lights so bright  
We can lose ourselves and start a new life  
Come on baby, please tonight

It's me on world, it's all alright  
(let's do it, touch it, feel it, taste it)  
Na, na, na, na, hey, hey, hey  
(be it, live it, need it, take it)
