Tell Me

The Alarm

And if you know what is the answer
Why don you tell me
What does it feel like
To be free
What does it feel likeTake a look at the punks
On the run from all the ministers
Collecting for the criminals
And the judges or the blame
If youe innocent or youe guilty
Or youe never been given a chance
And you'll never find an answer
There always, always, always, always
Just one more link to the chainAnd if youe found
What you think youe been looking for
Don look back
Because you won find nothing
Anymore
No, I guess you won't find nothingTake a look at the punks
On the run from all the ministers
Collecting for the criminals
And the judges or the blame
If youe innocent or youe guilty
Or youe never been given a chance
And you'll never find an answer
There always, always, always, always
Just one more link to the chainJust one more link to the chain
Just one more
(Just one more link to the chain)
Take a, take a, take a look
(Just one more link to the chain)
Take a look at the punks
(Just one more link to the chain)
At the ministers collecting
(Just one more link to the chain)And there's always, always, always, always
Just one more link to the chain
