Ninja

The Gents

There's a legend it lives in you
If it breaks the rule
No one would approve
But if that's the truth to save your soul
Secret agenda maps the roadEither with it or on it
This time we might win
Or be gone with the wind
Rise or fall I'll take them all
Secret passion spies on my lifeAll I can see is your phoenix eye
Face in black veil when would you be undisguised
As you're leaving everything is mystified
Ninmu kanryo ! Flash across the sky
Ninmu kanryo ! Flash across the skyAll I can see is your phoenix eye
Face in black veil when would you be undisguised
As you're leaving everything is mystified
Ninmu kanryo! Flash across the sky
Ninmu kanryo! Flash across the skyBe a strong, independent mission commander
Kill the scene, and leave without a trace like Ninja
Fighter spirit walks upon the water
Then I'll fade like a Ninja
Disappear like a NinjaThere's a legend it lives in you
If it sets you free
Be what U can be
Follow what Ur heart believes
Intuitively in your dreamsEither with it or on it
Now we see our way
We won't turn away
Rise above all we'll stand tall
Up against the order and lawAll I can see is your phoenix eye
Face in black veil when would you be undisguised
As you're leaving everything is mystified
Ninmu kanryo ! Flash across the sky
Ninmu kanryo ! Flash across the skyAll I can see is your phoenix eye
Face in black veil when would you be undisguised
As you're leaving everything is mystified
Ninmu kanryo! Flash across the sky
Ninmu kanryo! Flash across the skyBe a strong, independent mission commander
Kill the scene, and leave without a trace like Ninja
Fighter spirit walks upon the water

Then I'll fade like a Ninja
Disappear like a Ninja
