

# Shells

## Mirah

You learned how to be a diver,  
Put on the mask and believe.  
Gather a dinner of shells for me.  
Take the tank down so you can breathe below.  
Move in slow,  
You are an island.  
All the secrets until then  
pried open, I held them.  
Until they were still,  
Until they were still,  
Until they were still.
