

# Sweet Music

## Arthur Schwartz

New sensation, sensation  
New sensation, sensation  
New sensation, sensation  
Check out this groove and you're walkin' on air  
Goin' into a new dimension, yeah  
So put your vibes on my beat and we'll lay it down like that  
Slap the hi-hat in, put the fairlight on the track, ooh  
And we can go crazy like that, feelin' like that  
Movin' like that, dropin' like that  
Rockin' the track, I'm lookin' for that new sensation  
Woo hoo, I think we're on to somethin', you're taste it mirrors mine  
So high, I'm in the moment, let's make this demo right  
I might just lose it, woo hoo, when we make sweet music  
No feather beds, no exotic affair, yeah  
Got samples and scratches, let's do it right here  
(Boys and girls, a different kind of sound)  
'Cause every heartbeat babe is the soundtrack to your life, oh  
And there's a man out there must be sent to get me high  
And we can go crazy like that, feelin' like that  
Movin' like that, dropin' like that  
Rockin' the track, I'm lookin' for that new sensation  
Woo hoo, I think we're on to somethin', you're taste it mirrors mine  
So high, I'm in the moment, let's make this demo right  
I might just lose it, woo hoo, when we make sweet music  
When we make sweet music  
(Oh, yeah, yeah, yeah)  
When we make sweet music  
(Oh, yeah, yeah, yeah)  
When we make sweet music  
(Yeah, yeah, yeah)  
When we make sweet music  
I think we're on to somethin', your taste it mirrors mine  
So high I'm in the moment, let's make this demo right  
I might just lose it when we make sweet music  
And we can go crazy like that, feelin' like that  
Movin' like that, dropin' like that  
Rockin' the track, I'm lookin' for that new sensation  
Woo hoo, I think we're on to somethin', you're taste it mirrors mine  
So high, I'm in the moment, let's make this demo right

I might just lose it, woo hoo, when we make sweet music  
Woo hoo, I think we're on to somethin', you're taste it mirrors mine  
So high, I'm in the moment, let's make this demo right  
I might just lose it, woo hoo, when we make sweet music  
When we make sweet music, when we make sweet music
