

# In the Dark

## Flyleaf

Advisory - the following lyrics contain explicit language:

I've written songs in the dark  
In the dark, in the dark, in the dark  
I've felt inspired in the dark  
In the dark, in the dark, in the darkI hide myself in the dark  
In the dark, in the dark, in the dark  
Used to be afraid of the dark  
Of the dark, of the dark, of the dark  
Those in the light know we die in the dark  
In the dark, in the dark, in the darkThere's only artificial light here  
My flaws hide well here  
I used to be afraid of cluttered noises  
Now I'm afraid of silenceFill this space idle words  
I'm scared to death of light and silence  
Jesus kill me inside this  
Raise me up to live again  
Like You did, like You didNow I am mute despite myself  
All of them are gone  
The silence overtakes me  
The idle words forsake me  
And I am left to face meI'm held accountable for every idle word  
Curse the idle wordsI'm scared to death of light and silence  
Jesus kill me inside this  
Raise me up to live again  
Like You did, like You didGlory shows up  
Expose us, I'm naked here  
Forsaken here  
By the dark, by the dark, damn the darkI'm scared to death of light and silence  
Jesus kill me in side this  
Raise me up to live again  
Like You did, like You did
