Miles Away

Madonna

I just woke up from a fuzzy dream
You never would believe those things that I have seen
I looked in the mirror and I saw your face
You looked right through me, you were miles away
All my dreams they fade away
I'll never be the same
If you could see me the way you see yourself
I can't pretend to be someone else
You always love me more, miles away
I hear it in your voice, we're miles away
You're not afraid to tell me, miles away
I guess we're at our best when we're miles away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
When no one's around then I have you here
I begin to see the picture, it becomes so clear
You always have the biggest heart
When we're six thousand miles apart
Too much of no sound
Uncomfortable silence can be so loud
Those three words are never enough
When it's long distance love
You always love me more, miles away
I hear it in your voice, we're miles away
You're not afraid to tell me, miles away
I guess we're at our best when we're miles away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
I'm alright, don't be sorry, but it's true
When I'm gone you'll realize
That I'm the best thing that happened to you
You always love me more, miles away
I hear it in your voice, we're miles away
You're not afraid to tell me, miles away
I guess we're at our best when we're miles away

You always love me more, miles away
I hear it in your voice, we're miles away
You're not afraid to tell me, miles away
I guess we're at our best when we're miles away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
So far away, so far away
