Black Plastic

Ladytron

Someone's coming ro und in the evening
One touch on the face of a city
Boy, black plastic chair with some time to spare
Black plastic, touching black plastic
Someone's coming round in the evening
One touch on the face of a city
Boy, black plastic chair with some time to spare
Black plastic, touching black plastic
Someone's coming round in the evening
One touch on the face of a city
Boy, black plastic chair with some time to
Drawing on face of a girl who is sleeping
Black plastic chair reaching out making one touch
