

# Black Plastic

## Ladytron

Someone's coming round in the evening  
One touch on the face of a city  
Boy, black plastic chair with some time to spare  
Black plastic, touching black plastic  
Someone's coming round in the evening  
One touch on the face of a city  
Boy, black plastic chair with some time to spare  
Black plastic, touching black plastic  
Someone's coming round in the evening  
One touch on the face of a city  
Boy, black plastic chair with some time to  
Drawing on face of a girl who is sleeping  
Black plastic chair reaching out making one touch
