

Until I Stay

Jully Black

My eyes are open in bed
There simply not enough was said
 Won't come out of my mouth
 I should be thinking of you
 But there's someone else instead
There's so much to figure outI thought of lettin go,
 But my mind won't let me.
My heart will never know whats true
 I just never thought
 I'd find a reason
Keep me coming back until i stayWhen we're out on the street
 There's a perfect you and me
 They believe what they see
 Way down underneath
 You're a stranger to me
 I'm in this too deep
Love's getting harder to keepI thought of lettin go,
 But my mind won't let me.
My heart will never know whats true
 I just never thought
 I'd find a reason
 Keep me coming back until i stay
Keep me coming back until i stayMy mind, my heart
 Has never been so far apart
 We knew from the start
 It was bound to fall apart
 I stay, I leave
 It's never gonna change for me
Keep me coming back until I stayI thought of lettin go,
 But my mind won't let me.
My heart will never know whats true
 I just never thought
 I'd find a reason
 Keep me coming back until i stay
Keep me coming back until i stayKeep me coming back until i stay.....
