

Sea Turtles

Andrea Hamilton

Hey, come to the water with me
I found something
Waves quiet like a lullaby is calling
The sea turtles to bay

Speak anything they won't tell
Neither will I
Waves sink and rise the way my heart does for you
It must obey the tide

Oh other moments
Didn't feel, feel right
So I've been holding
Out until tonight

Step into the ocean shore
Walk where they run
Strange, all their footprints disappear to silence
Like secrets just for us

Oh other moments
Didn't feel, feel right
So I've been holding
Out until tonight

The one night every year
The moonlight leads them here
They don't lose their way
I hear the timeless trees
Ancient mysteries
Inviting us to stay

Oh other moments
Didn't feel, feel right
So I've been holding
Out until tonight
