

# Tenderloin (Album Version)

## Rancid

Realize you're dehumanised You criticize your existence It's your demise when  
no sun arise When you're paralyzed by your lack of resistance  
She knows she is  
she knows she's goin' down below where the fire's glowing tenderloin  
The  
tricks she gets them she's not a victim She makes a list of them and reads  
them all Alone for money she's walkin' down on larkin'  
In T.I. they're rockin  
all night long
