

# I Know

## Emerson Hart

You'd never admit you played a part  
In rippin' us both in two  
It's easier said, when it's ordinary life  
That got to you  
Was it a waste of time to pull the line again  
Now that it's gone Now you're looking at your past like a broken glass puzzle  
From mistakes that you made And I know, yes, I know, yes, I know  
Yes, I know, yes, I know that you want this  
Yes, I know, yes, I know, yes, I know  
Yes, I know, yes, I know that you still care It's never enough, it's never done  
The way that you want it to  
It's easy to walk when you run from all the years  
They stole from you  
Was it a waste of time to pull the line again  
Now that it's gone So now you're looking at your past through a broken glass  
Puzzle of mistakes that you made And I know, yes, I know, yes, I know  
Yes, I know, yes, I know that you want this  
Yes, I know, yes, I know, yes, I know  
Yes, I know, yes, I know that you still care But when will you learn to make this over  
Cause there's no harder life that I could lead  
Than when I am with you So you're looking at your past through a broken glass  
Puzzle of mistakes that you made And I know, yes, I know, yes, I know  
Yes, I know, yes, I know that you want this  
Yes, I know, yes, I know, yes, I know  
Yes, I know, yes, I know that you still care But when will you learn to make this over  
Cause there's no harder life that I could lead  
Than when I am with you When will you learn to make this over  
Cause it's alright, it's okay  
Just don't say that you love me  
If I'm just some mistake you made
