Bringer Of Death

Danzig

See the devil kiss the hand of God
See the devil cryin' tears of flame
See the devil bite the hand of Christ
And know the devil is the work of GodAnd all the devils do the work of God
In this season of the world's demise
Upon the wings of the fallen dream
I hear the sound of a bleeding mindBringer of death, bringer of death
Bringer of death, bringer of deathThe angel's smile is a smile of shame
They bring the tortures that infest the earth
See the warlords of Heavenly rank
And know that war is the will of GodBringer of death, bringer of death
Bringer of death, bringer of death
