

Romantic Dreams

Deftones

I process
Your constant changing phases
I watch them
Releasing right on cue In time, in sync
Tonight the stage is yours So why wait to discover your dreams?
Now heres your chance
I promise
To watch and raise your babies
In time, in sync
Tonight the stage is yours Im hypnotized by your name
I wish this night would never end So why wait for the colors to bleed?
What do you expect?
So heartless we march into the fumes In time, in sync
Tonight the stage is yours Im hypnotized by your name
I wish this night would never end
I wish this night Im hypnotized by your name
I wish this night would never end
I wish this night
I wish this night wouldnt end
I wish this night
