Love You Better

Oh Land

Drop
(Drop)
Collipark, drop
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop like this
Betcha never thought you'd meet a girl quite like me
(Like me)
I like to ball, I'll take you out, by out the mall
Never thought you'd meet a girl quite like me
(Like me)
I own it all, The cribs and cars, I'm a superstar
Anything you want, boy, you know I got it
Put chu you on a plane, go somewhere exotic
Take you all around the world, fulfill you fantasies
I can make you love me, I'll be everything you need
That's your girlfriend?
Yeah, whatever
I know, I can love you better
She's not special
I just met her
I know, I can love you better
Ooh
(Ooh)
You don't look to happy at all
You need me in your life
You should call, I will save you
(Ahh)
Baby, you should let me be there for you
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop
You're the boy who I've been pursuing, I want you bad
(Bad)
I'll be the girl you never had
Pardon me if I seem too aggressive

(I'm sorry)
You want me to, I'll make you love me, I'll spoil you too
Anything you want, boy, you know I got it
Put chu you on a plane, go somewhere exotic
Take you all around the world, fulfill you fantasies
I can make you love me, I'll be everything you need
That's your girlfriend?
Yeah, whatever
I know, I can love you better
She's not special
I just met her
I know, I can love you better
Ooh
(Ooh)
You don't look too happy at all
(All)
You need me in your life, you should call
(All)
I will save you
(Ahh)
Baby, baby, you should let me be there for you
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop like this, drop like this, drop like this
Drop
Betcha never thought you'd meet a girl quite like me
