

# You Are for Me

## Plankeye

When I'm away you never change  
Your love it stays, when mine, it fades  
Men will say what they say  
It doesn't change a single thing  
For you are for me  
Another day, it burned me up  
Words are cruel like children  
The strangest thing, I was born for this  
As sparks, they fly upward  
But you are for me  
I got the shakes for the lions outside are awake  
It's feeding time and it's my life that is the story line  
The truth is strong and she holds me  
She keeps me moving on when it gets overwhelming  
But you are for me  
Your day will come, hold on
