Turn It Around

Sub Focus

I don't know what they're telling you
But I know we can turn it around
I know I've hurt you, and I've not been true
But I know I can turn it aroundA song of desperation, but I'm not letting go
I'll be with you in the hour, I'll be with you
They said we were too young, to keep our love so strong
You said you want devotion, look no furtherI don't know what they're telling you
But I know we can turn it around
I know I've hurt you, and I've not been true
But I know I can turn it aroundA song of desperation, but I'm not letting go
I'll be with you in the hour, I'll be with you
They said we were too young, to keep our love so strong
You said you want devotion, look no furtherKeep our love so [x12]It's inside
It's all around you
I'm going to put these arms
All around you
