Golden Gate

Vindictiv

You are all that matters to me
You mean everything to me, you are all I got

Always there in good or bad, make me happy when I'm sad
Will I ever find what I'm looking for?

Standing at my golden gate, just arrive not a minute too late
The grass is always greener on the other side
Cannot judge, I estimate
I'm afraid I lost my faith
Time will live that way for me

You are like a beam in the night, show me the way
A voice that call you when I run astray

You're the fire that keeps me warm, my shelter in the middle of the storm
Will I ever find what I'm looking for?

Standing at my golden gate, just arrive not other minute too late
But the glass is sweeter on the other side
Cannot judge, I estimate
I'm afraid I lost my faith
Time will live that way for me

I can feel you in my blood
I can feel you in my mind
You won't set me free no!

Such a sweet illusion making us blind
Will I ever find what I'm looking for?

Standing at my golden gate, just arrive not a minute too late
But the grass is greener on the other side
Cannot judge, I estimate
I'm afraid I lost my faith
Time will live that away for me

If I just get a glimpse, I will not doubt
But there's no easy way out
No time will never wait for me

You are the fire, keeping me warm
But time will live that way for me
