# Karl Marx and History

## Randy

We got firecrackers and red balloons
And a street orchestra that plays a tune
Confetti's flying in the air
A lot of people are gathered hereWe got placards posters and stickers to
We got reggae music by Yabby You
We got red flags, black flags and flag with stars
We got slogans painted on our guitarsWe speak about freedom, speak about freedom
We speak about war, speak about war
We got a vision, baby, we got a vision
That we just can't ignoreIt sure rains on our parade
But the wind will change the clouds will fade
A change will come eventually
So says Karl Marx and historyWe got vegetarian gumbo stew
The Rockin' Pneumonia and the Punk Rock Flu
We got iko iko and Stagger Lee
And the junco partner's leaning against a treeWe got Emma Goldman and Chomsky too
We got things to say we got stuff to do
We got all kinds of freedom fighters gathered here
We got our friend in the corner over there drinking beerWe speak about the future, speak about the future
We speak about the past, speak about the past
We speak about a new world order
A new world order, a new world order
And we hope that we can get there fast, a new world orderIt sure rains on our parade
But the wind will change the clouds will fade
A change will come eventually
So says Karl Marx and historyKarl Marx and history, Karl Marx and history
Karl Marx and history, Karl Marx and history
Karl Marx and history, Karl Marx and history
Karl Marx and history, so says Karl Marx and history
