

# Walk Away

[Geri Halliwell](#)

There's a river of tears i need to cry  
Been holding back for years  
There's a mountain so high i need to climb  
To wipe away the fears  
Solitude and loneliness have been a friend of mine  
As i'm turning my back on emptiness  
I leave them all behind Who knows just where i'm going  
Does tomorrow belong to me Chorus:  
Walk away this time with my head up high  
Walk away just me and myself  
Walk away with pride  
Nothing left to hide  
But it just feels right to be one  
And just walk away I could never forget how hard I tried  
When we were oh so young  
Just one tender moment I cannot find  
Maybe I had none Strength will be by my side  
Although I feel afraid  
But I know it's too late for this goodbye  
There's nothing left to say Who knows just where I'm going  
Does tomorrow belong to me Chorus Walk away this time with my head up high  
Walk away just me and myself  
Walk away with pride  
Nothing left to hide  
But it just feels right to be one  
And just walk away this time  
One day you'll realise  
That the tears you saw in my eyes  
Won't be there forever Chorus to fade
