

Eternity

Master P

This is an invitation for all my thug niggas to come join me
On a journey to the ever lastin' ship of eternal life
A place where there's no violence, no pain, no crime, no ghettos
Nothin' but sunshine at the end of the road so come with me let's ride
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
Back in the days I was afraid of the police
Just another paranoid drug dealer on the streets
My ghetto hero was above the law I caught a glimpse of a bullet
That took him down like a south paw
Uneducated to the game of life I was hated to the grave
But the pen kept my mind right
A young motherfucker doomed since day one
Shit I'm a fool, I'm a ball 'til my time come
A G to me is like a mil' on the streets, I'm a kill just to eat
And leave my enemies on the concrete
They say a soft heart make a bitch nigga stay alert, stay alive
That's the code of a thug nigga
I don't wanna rob and steal but crime pays the bill
Niggas know I'm real so my pain is what they feel
I'm a rider through niggas gone feel me
C-Murder ain't gone die 'til a bitch nigga kill me
All my thug niggas ride to eternity let's ride nigga, let's ride
nigga
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
How many niggas want to ride with me?
When I'm gone don't my fucking soldier cry for me
I want the nigga that did it to die with me
And his mama and his brother take a ride with me 'Cause I'm a killer nigga baller
Servin' up the 3rd ward Cali or New Orla'
Nigga like the Devil with the motherfuckin' red prints
Fight me like a monkey on top of an elephant
The game got me crazy profecy Dazy
This God wasn't there when a nigga tried to play me
God won't you save me? Nigga only a baby
Only time could take me, mama why you made me?
Life is like slavery, tech-nines and three eighties
Homies live in shady pray for your baby my first born replace me
This ghetto might waste me, I'm a hunted bitch like ghostly
It be a nigga close to me that take me
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
They told me in this life those who start off
last, a end up first
Those who start up first a end up last
Last time I saw a 45 blast a nigga
Who was last should be doin' 50 years
Without parole life is cold but it fair fuck the mayor that coward bastard

Ask him durin' his term how many niggas
Saw jail cells and found caskets
Place me the plastic when it's time to shoot only God will know the truth
What's in a nigga's blood is in his heart
From the start my pain was irreversible
The book on how to kill a nigga is unwritable my title
Don't solidify our right to tell a child how to live his life
Or how to stop a man when he beat his wife but if you
turn
Your back grab your gun we could ride tonight
And ain't no game as I stroll on
Nigga you know this S E R V Mister get my ride on
All my thug niggas ride to eternity let's ride nigga, let's ride
nigga
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
All my thug niggas ride to eternity let's ride nigga, let's ride nigga
The media point the finger at me like I'm the
bad guy
But it's okay just take a good look at me
I'm no different then your average
Businessman society wants to eliminate me
But uh in a few years you be wishin' you had another Don like me
Sincerely yours, America's nightmare Master P
