Fire With Fire

Gossip

It ain't the end of the world, girl
You'll find your place in the world, girl
All you gotta do is stand up and fight
Fire with fireBig or small makes no difference
We're gonna tell them what shape you'll be
All you gotta do is stand up and fight
Fire with fireYou gotta run on, we're gonna find you
Who, ho, oh, you turn around
We're right behind you yeah, eh, ey
Can't you see that the bigger we are
The harder you'll fallNow it ain't the end of the world, girl
You'll find your place in the world, girl
All you gotta do is stand up and fight
Fire with fireIn the end no one is innocent
Big or small it makes no difference
Get up, stand out
And hold your head up higher and higher
HigherYou gotta run on, we're gonna find you
Who, ho, oh, you turn around
We're right behind you yeah, eh, ey
Can't you see that the bigger we are
The harder you'll fall
