

# Take You Out

## Lady Gaga

last week i saw you out  
and i knew we would be a match in heaven  
just the coolest kind of team i know there ain't now way that we won't  
cuz we won't stop till we go  
go the distance we're a distance  
baby i believe it  
i still believe it  
and you know won't be defeated  
in my heart i believe it yeah  
you and me are gonna win it baby i'm gonna take you out, take you out ,take you out  
we're gonna show this town what i know we're about  
shoot it run it what's it called ?  
everybody loves it , football.  
shoot it run it what's it called ?  
everybody loves it, football. i've got the feeling that this year could be the one  
we're gonna tear it up and burn out everyone  
i i know there ain't now way that we won't  
cuz we won't stop till we go  
go the distance we're a distance  
baby i believe it  
i still believe it  
and you know won't be defeated  
in my heart i believe it yeah  
you and me are gonna win it baby i'm gonna take you out, take you out ,take you out  
we're gonna show this town what i know we're about  
(shoot it run it what's it called ?  
everybody loves it , football.) x4 new york , london, paris, munich  
everybody talks about pop music  
(i still believe it  
and you know won't be defeated  
in my heart i believe it yeah

we're gonna show this town what i know we're about) x2
