

# Count on Me

## Jefferson Starship

Precious love, I'll give it to you  
Blue as the sky and deep in the eyes of a love so true  
Beautiful face, you make me feel  
Lite on the stairs and lost in the air of a love so real And you can count on me  
Count on my love  
Count on me  
Count on my love to see you through Emerald eyes and China perfume  
Caught in the wheel and lost in the feel of a love so soon  
Ruby lips, you make my song  
Into the night and saved by the lite of a love so strong And you can count on me  
Count on my love, baby  
Count on me  
Count on my love to see you through Ooh, you can count on me, girl  
Count on my love Precious love, I'll give it to you  
Blue as the sky and deep in the eyes of a love so true  
Beautiful face, you make me feel  
Lite on the stairs and lost in the air of a love so real And you can count on me  
Count on my love, baby  
Count on me  
Count on my love, baby Count on me  
Count on my love, baby  
Count on me  
Count on my love
