

(Memory Imprints) Never End

Fear Factory

After the smoke clears
And the flames subside
(We have been forsaken)Subside!A thousand eyes were upon me
Soulless and without mind
(We have been forsaken)Will there never?
Will there never?
Will there never be an end?If I could be forgiven
Every breath would be a prayer
(We are not forgiven)Will there never?
Will there never?
Will there never be an end?I have tread, spanned the horizon
I've seen this world, the beauty in decay
I strike down the faceless and unknown
I feel blessed, for I can see the stars look down on me
Stars look down on me
Stars look down on me
Stars look down on meWill there never?
Will there never?
Will there never be an end?
Will there never be an end?
Will there never be an end?
Will there never be an end?Stars look down on me
(Na na na na na)
Stars look down on me
(Na na na na na)
Stars look down on me
(Na na na na na)
Stars look down on me, yeah
(Na na na na na)After the smoke clears
Will there never be an end?
Will there never be an end?After the smoke clears
Will there never be an end?
Will there never be an end?
