Behind Your Eyes

Orca Team

If you let your feelings go, dear
It'll scare you what you'll find
I find them on your street, dear
And you're always on my mindNo one needs to know
That you let me in tonight
That you let me see the world behind your eyes
Behind your eyesI want to see us work, dear
To reach the other side
My treachery is love, dear
We're on both ends of the fightWe're fighting for ourselves
We're fighting for our lives
Would you let me see the world behind your eyes?
Behind your eyes
Behind your eyesNo one needs to know
How scared we are tonight
Would you let me see the world?
Would you let me see the world? (behind your eyes)
Would you let me see the world behind your eyes?
Behind your eyes
Behind your eyes
