

# Behind Your Eyes

## Orca Team

If you let your feelings go, dear  
It'll scare you what you'll find  
I find them on your street, dear  
And you're always on my mind  
No one needs to know  
That you let me in tonight  
That you let me see the world behind your eyes  
Behind your eyes  
I want to see us work, dear  
To reach the other side  
My treachery is love, dear  
We're on both ends of the fight  
We're fighting for ourselves  
We're fighting for our lives  
Would you let me see the world behind your eyes?  
Behind your eyes  
Behind your eyes  
No one needs to know  
How scared we are tonight  
Would you let me see the world?  
Would you let me see the world? (behind your eyes)  
Would you let me see the world behind your eyes?  
Behind your eyes  
Behind your eyes
