

Got Mutation

Suicidal Tendencies

I got mutation baby I'm sinking inside a dream
Cemented in make believe
I'm pointing, why can't they see
Have you got mutation baby?
The demons inside a tree So have you been mutated baby? I got mutation I'm blazing uncharted paths
Challenging the ghosts of the past
Confusing the sacred oath
I got mutation baby
Antagonize the caustic host Mutation I got mutation
I got mutation
I got mutation
I got mutation
I got mutation I got mutation baby
I got mutation baby
I got mutation baby
I got mutation baby Have you got mutation?
Have you got mutation?
Have you got mutation?
Have you got mutation? I got mutation baby The essence that anger builds
The terror that knows no guilt
Sensation that has no bounds
Have you got mutation baby?
When the spirits all make the rounds Have you got mutation? Yes, I got mutation
How do you make, how do you break?
Yes, I got mutation
How do you break, how do you make? Have you got mutation? How do you make, how do you break?
I've gone mutation
How do you break, how do you make?
Yes, I've gone mutation How do you make, how do you break?
I've gone mutation
How do you break, how do you make?
Yes, I've gone mutation I got mutation
